

Services

The Software Shop specializes in creating custom software and websites designed to meet the specific needs of your business. You wouldn't use a hammer to cut a board, so why would you use the wrong software tool to automate your business needs? Don't waste resources on an expensive solution that has way more functionality than you could ever utilize, and don't settle on a cheap solution that is only useful for a subset of the problem. Speak to a Technology Craftsman at The Software Shop and let us work with you to create an appropriate, affordable, and functional IT solution.

Custom Application Development

You want an affordable software product that solves the whole problem. But, you don't want to sacrifice quality or ease-of-use. We are engineers, devoted to our craft. We don't just "write code"; we are invested in your success. Our artisans will work closely with you to analyze the problem and design the proper software solution.

Application Maintenance and Consultation

Roofs leak, walls crack, pipes burst, and contractors leave before the job is finished. Even if everything is just right, you may still change your mind. Without an expert, application maintenance can be a nightmare. The Software Shop is here to help. We will assess issues with your current solution, or website, and recommend appropriate action. Work with us to keep the rain off your head.

Existing Product Integration

The IT world now revolves around services. You might have a service that you would like to provide to your business partners or customers. Or, you might need to access a service provided by them. The Software Shop can make the connection. We can even refine redundant internal processes to leverage a single service. Our specialists utilize the latest web service technologies to provide the software integration you desire.

Website Design

Having an effective, highly visible, and responsive website is one of the most important ways to

grow your business. At The Software Shop, we understand that your business is unique and your website should be too. We work closely with you to create a site that accurately reflects the image that you have created for your business. Let us help you to gain the competitive advantage that you are seeking.

Mobile Development

Mobile is integral part of almost all business and software strategies today. Whether you need an application that runs natively on device, or a website that extends seamlessly across multiple devices and screen sizes, we know how to make this happen. Our craftsmen will not just deliver a working solution, we'll deliver the right one to match your goals and strategy.
